

Flu vaccines 2020 to 2021 season

6 months to under 2 years	2 years to 11 years	2 years to less than 9 years	11 years to 17 years	9 years to 64 years ^(iv)	65 years and over
<p>In a clinical risk group</p> <p>QIVe (Quadrivalent influenza vaccine, egg-grown)</p> <p>1⁽ⁱ⁾ 3⁽ⁱⁱ⁾</p>	<p>All children with no contraindications to LAIV</p> <p>Quadrivalent LAIV (Live attenuated influenza vaccine, nasal spray suspension)⁽ⁱⁱⁱ⁾</p> <p>2</p>	<p>In a clinical risk group and LAIV medically contraindicated</p> <p>QIVe (Quadrivalent influenza vaccine, egg-grown) – for 2 to 3 year olds check 'licensed from' age for appropriate vaccine</p> <p>1 3 4</p>	<p>In a clinical risk group and no contraindications to LAIV</p> <p>Quadrivalent LAIV Live attenuated influenza vaccine, nasal spray suspension)⁽ⁱⁱⁱ⁾</p> <p>2</p>	<p>• 9 years to 17 years in a clinical risk group and LAIV contraindicated</p> <p>• 18 years to 64 years in a clinical risk group</p> <p>• pregnant women</p> <p>• frontline health and social care workers</p> <p>QIVc (Quadrivalent influenza vaccine, cell-grown)</p> <p>or QIVe (Quadrivalent influenza vaccine, egg-grown) as an alternative to QIVc</p> <p>1 3 4 5</p>	<p>All 65 years and over (and those who will turn 65 years before 31/03/2021)^{(v)(vi)}</p> <p>aTIV (Adjuvanted trivalent influenza vaccine)^(v)</p> <p>or QIVc (Quadrivalent influenza vaccine, cell-grown) if aTIV not available</p> <p>5 6</p>

Quadrivalent Influenza Vaccine▼
Sanofi Pasteur

QIVe⁽ⁱ⁾
(available to order from ImmForm for children 6m to 2y)

1

licensed from 6 months of age

Fluenz® Tetra
AstraZeneca

LAIV

2

licensed from 2 years to less than 18 years of age

Fluarix Tetra
GSK

QIVe

3

licensed from 6 months of age

Influvac® sub-unit Tetra▼
Mylan

QIVe

4

licensed from 3 years of age

Flucelvax® Tetra▼
Seqirus

QIVc

5

licensed from 9 years of age

Adjuvanted Trivalent Influenza Vaccine
Seqirus

aTIV

6

licensed from 65 years of age

(i) Available to order from ImmForm for children 6 months to 2 years
(ii) Subject to additional supply becoming available late autumn
(iii) Some people may not accept the use of porcine gelatine in medical products such as LAIV, for details on alternative vaccine offer available later in the season see PHE information for healthcare practitioners 'The National Childhood flu Immunisation Programme 2020 to 2021'
(iv) The aim is to further extend the vaccine programme from November and December to include the 50-64 year old age group subject to vaccine supply. This extension is being phased to allow prioritisation of those in at risk groups first
(v) Although aTIV is not licensed for those less than 65 years of age it is recommended that those who will become 65 years of age before 31 March 2021 can be offered the vaccine 'off label'
(vi) TIV-HD Trivalent influenza vaccine (Sanofi Pasteur) suitable for 65 years of age and over but not eligible for reimbursement under NHS flu vaccine programme.
